

■ **EXCEPTIONALLY CLEAN**

Utilizing a unique, dual purpose track which seals and retains the door curtain, the Iso-Roll isolates air infiltration from the ground up. With its “soft seal” bottom edge the curtain will mold to your floor’s contours and is cGMP, FDA and EMEA compliant.

■ **ULTIMATE DURABILITY**

The Iso-Roll’s uncomplicated design includes an automatic curtain reset feature. If the curtain becomes displaced from its track, it will automatically reset on every upward cycle. The reset system requires no buttons to push, tools or downtime to adjust.

■ **ADVANCED TECHNOLOGY**

As safe as it is reliable, the Iso-Roll with its non-rigid bottom seal and wireless reversing edge has no bottom bar to replace or clean. The side frames are designed for maximum durability and easy wipe down/wash down. Sloped shrouds completely enclose the curtain roll and drive motor, for exceptional cleanliness and lasting performance.

■ **SUPERIOR DESIGN**

With its minimal profile design, the Iso-Roll is ideal for applications with restricted or limited wall space and will help maintain a clean, streamlined appearance.

■ **UNMATCHED QUALIFICATIONS**

With over 40 years of combined experience, our professional sales consulting team will ensure your mission-critical requirements, while maintaining our uncompromising dedication to quality and value added service.

MODEL 415 ISO-ROLL

High Speed Interior Fabric Roll-Up Door

Innovative Design. Superior Performance. Exceptional Value.

MARATHON HIGH SPEED, HIGH CYCLE DOORS, DESIGNED FOR THE LONG RUN.

Marathon’s fabric roll-up door is designed, engineered and precision manufactured with over 40 years of experience partnering with today’s leading manufacturers and architects across the country. The 415 fabric roll-up door combines a clean, attractive finish, while maintaining the smallest footprint in the industry. With a heavy-duty fabric curtain, high speed, soft bottom edge technology and a simple breakaway system with automatic reset, this door sets the standard for controlled environments.

Using cutting-edge technology and exacting criteria for quality, these doors have surpassed market demands. Our quest for uncompromising quality, and our steadfast commitment to meet our customer’s ever-changing expectations, is evident in one of the most durable, personnel friendly, maintenance free roll-up door systems available in today’s highly controlled environment marketplace.
